

2024-2025 Ontario Graduate Scholarships - Domestic (OGS)

Deadline: February 26, 2024

Award Overview

Student Deadline:	February 26, 2024 at 11:59 PM (ET)
Value/Duration:	\$5,000 per session for 3 consecutive sessions
Level of Study:	Master's or Doctoral
Required Legal Status:	Domestic Students (Canadian citizen, permanent resident, protected persons)
Results:	July 2024

Purpose

The Ontario Graduate Scholarship (OGS) program encourages excellence in graduate studies at publicly-assisted universities in Ontario. Since 1975, the OGS program has been providing merit-based scholarships to Ontario's best graduate students in all disciplines of academic study. The scholarship program at U of T is jointly funded by the Province of Ontario and the University of Toronto. The Province allocates OGS awards to universities specifying the number of awards that each may offer to their students annually.

Indigenous Scholar Awards

The Ministry of Colleges and Universities (MCU) has permitted universities to offer a minimum of two (2) OGS awards exclusively to Indigenous graduate students with the aim to recognize excellence and promote equitable access and participation in the Ontario Graduate Scholarship program by Indigenous applicants.

Graduate students who are Indigenous to Canada (recognized in the Constitution Act, 1982 as a person who identifies with First nations (Status/Non-Status), Métis, or Inuit) and provide this information on their OGS application may be eligible to be considered for one of at least three (3) Ontario Graduate Scholarship Indigenous Scholar Awards and potentially other Indigenous awards offered by the School of Graduate Studies.

Eligibility

Applicants must:

- Be a Canadian citizen, Permanent Resident, or Protected Person under subsection 95(2) of the Immigration and Refugee Protection Act (Canada) by the student deadline as determined by each graduate unit;
- Be registered or intend to register in an eligible program on a full-time basis in 2024-2025;
 - An eligible program is defined as a full-time program of study of two or three terms at the University of Toronto leading to a graduate degree. A full-time student is one who is in at least 60% of a full course load (40% for students with a permanent disability) or as defined by their institution.
- **Be able to hold an OGS for three consecutive sessions (IMS specific requirement)**
- Have not exceeded the lifetime maximum of government-funded support or maximum OGS/QEII-GSST support available for their current level of study (see SGS OGS [website](#) under maximum support); and
- Have achieved at least A- (or equivalent) in **each** of the last two completed years of study (full-time equivalent); **or** if the student has completed two years of graduate studies at the time of

application, the student must only demonstrate an overall average of at least A- (or equivalent) on all graduate courses completed

- **NEW:** At the graduate unit's discretion, exceptions may be made for highly meritorious applicants who are below the required GPA minimum. Examples of cases in which a unit may consider granting an exception include (but are not limited to): applicants with documented medical issues or family care responsibilities, applicants who have pursued alternative career paths, or mature students with professional experience.
- Interested IMS students can contact Alicia Sam at sf.medscience@utoronto.ca to confirm if they are eligible to apply for the OGS with this exception.

Note: If marks used for calculating an applicant's grade point average (GPA) are not available (e.g., courses were graded on a pass-fail basis), then the next most recent available undergraduate or graduate marks should be used to determine eligibility.

NOTE: Applicants must submit all post-secondary transcripts (unofficial/official) and should include current graduate studies at U of T, even if they have not yet received grades. Applications with missing transcripts or transcripts without their current year of study will be deemed incomplete.

EXCLUSIONS: This award is not available to: Clinician-scientists enrolled in a postgraduate medical education program; MDs enrolled in a clinical department as Research or Clinical fellows who are supported at a clinical salary level or equivalent.

To be eligible to hold the OGS, recipients:

- Must register and remain enrolled as a full-time student at U of T in an eligible program at the graduate unit from which the OGS was awarded;
- Who withdraw, transfer to part-time status, complete degree requirements prior to the end of their award, or fail to complete the full term, will be required to repay any funds received for the incomplete term;
- Must be in good standing with the Ontario Student Assistance Program (OSAP). Applicants who have defaulted on a Canada or Ontario Student Loan, or have failed to make satisfactory repayment on a loan overpayment, are ineligible to receive the award. Students who have never applied for OSAP are in good standing. Those with an OSAP restriction may still apply for the OGS. However, if awarded, they must have the restriction cleared within 30 days of notification in order to accept and hold the award;
- May accept research assistantships, part-time teaching positions, or other paid employment that does not affect their status as a full-time graduate student and is commensurate with the graduate unit policies. Typically, students holding full-time paid employment are not eligible to receive an OGS from the University of Toronto; and
- Cannot hold an OGS award in the same session (overlapping) or from the same award year as a scholarship from SSHRC, NSERC, CIHR, QEII-GSST, or another OGS.

The eligibility criteria provided above are the minimum requirements only.

Application Process

Applicants must submit an OGS application to their proposed graduate unit using the U of T OGS Application Form, accessible through the [SGS OGS webpage](#).

Each graduate unit will have their own internal submission deadline to which applicants must adhere. **The deadline for the IMS is February 26, 2024. No late applications will be accepted.** Applicants should review the U of T [OGS Application Instructions](#) prior to starting an OGS application.

Once the entire application has been completed and submitted online, it will be made available to the proposed graduate unit for review and consideration.

Important note for prospective students: OGS awards are not transferrable between universities or between graduate units at U of T. Accordingly, students must submit an OGS application to each graduate unit for which they are seeking admission at U of T and to each Ontario institution if applying to multiple universities (each institution will have its own unique OGS application and process).

Results

Graduate units will update their competition results on the OGS application system, viewable by applicants by June 3, 2024. Official OGS award offers will be issued by SGS starting July 2024.
